

PROTECTION LINE

Al Mana Enterprises are now pleased to offer a portfolio of contract maintenance packages for your Carrier transport refrigeration units.

Our solutions allow you to budget and plan for the future by giving you fixed costs for the maintenance and/or repairs and accurate maintenance forecast scheduling.

We can give you the flexibility to react quickly and to keep your fleet moving while ensuring total control with a fixed cost option.

Our experts will analyse your fleet requirements and recommend the most suitable service agreement. Once you have selected a solution your equipment will receive regular inspection, preventative maintenance and proper calibration.

Potential problems will be prevented before they occur.

As the name implies, the **PROTECTION LINE** solution offers you the best we can offer and total peace of mind of our full range of services, all the benefits of our professional service centre with one major bonus: no surprises.

The package covers all the costs of parts and services, whether scheduled or unscheduled.

PROTECTION LINE provides complete flexibility, with customised solutions meeting the operator's needs, based on the number of unit operating hours and the contract duration.

Budgeting and cash-flow planning become entirely predictable, and the risk of incurring any unexpected costs is completely eliminated.

With our **PROTECTION LINE** package you can count on:

Risk Elimination— Al Mana Enterprises takes full responsibility for all preventative Maintenance, servicing and repairs using only genuine Carrier Transicold Parts

Flexible Support— Each contract is customised, and levels of support can be adapted to the needs of your business and budget.

Increased Utilisation—By regular planned maintenance your fleet can operate with reduced down time due to costly breakdowns.
