

## INDEPENDENT — FLEXIBLE — RELIABLE

Al Mana Enterprises Co is proud to introduce a comprehensive range of portable cold and freezer stores for all of your off site refrigeration requirements.

The refrigeration units supplied are 100% independent of any other requirement, they will run and operate using their own inbuilt diesel engine to control the desired temperature within the cold store and will start and stop as required, no more need for expensive and unreliable generators.

Specially designed for demanding quality sectors:

- |                         |                              |
|-------------------------|------------------------------|
| »Meat and fish industry | »Bakery industry             |
| »Labour Camp Catering   | »Healthcare                  |
| »Wholesale              | »Catering                    |
